*Must recycle the old						

Water Heating

Electric Water Heater (40 gal. min.)	EF = 90 or >				$ 75.00	
Heat Pump Water Heater	ENERGY STAR				$ 500.00	
Solar Water Heater					$ 500.00	

**PLEASE SUBMIT A COPY OF YOUR ENERGY STAR LABEL AND SALES RECEIPT **

Commercial Lighting

Commercial lighting is available to customers on a commercial utility rate. Lighting rebates are available for retrofit installations where a less-efficient form of lighting is being replaced. The only lighting rebates available for commercial construction is use of LED fixtures with occupancy sensors. Part # or SKU's must be listed on the invoice.

LED Lighting:

	Qty	Per Unit Rebate	Rebate Total
Fixtures < or = to 30 watts		$30.00	
Fixtures 31 to 99 watts		$50.00	
Fixtures 100 watts or larger		$ 100.00	

	Qty	Per Unit Rebate	Rebate Total
Occupancy Sensors		$25.00	

	Qty	Per Unit Rebate	Rebate Total
LED Exit Lamps		$ 30.00	

IMPORTANT: For air conditioning, heat pumps (air to air) and geothermal, AHRI# is required for verification.

Central Air Conditioner

Reason for purchase (check one): ☐ Old unit failed ☐ Increased efficiency ☐ New construction ☐ Other _____

Installation year of old AC: _____ SEER rating of old AC: _____

		Brand	Model	Rating			Total Rebate
Residential							
☐	SEER 14.5 - 15.9					$ 200	
☐	SEER 16 +					$ 500	
Commercial		Brand	Model	Rating			Total Rebate
☐	SEER 14.5-15.9	< 65,000 BTU/hr				$ 200	
☐	SEER 16 +	65,000-135,000 BTU				$ 500	
☐					TONS	Rebate per ton	
☐	EER 11.5	65,000 - 135,000 BTU/hr				$ 50	
☐	EER 11.2	135,001 - 250,000 BTU/hr				$ 50	

Heat Pump

Reason for purchase (check one): ☐ Old unit failed ☐ Increased efficiency ☐ New construction ☐ Other _____

Type of Heating system replaced: ☐ Gas Furnace ☐ Electric Furnace ☐ Electric Baseboard ☐ Other _____

Installation year of previous heating system: _____

Type of Cooling system replaced: ☐ Central AC ☐ Window air conditioner(s) ☐ None

		Rebate	Total Rebate
Car Charging Equipment*			
☐	Pay 50% of cost to maximum of $500.00 *LEVEL 2 ONLY QUALIFIES FOR REBATE		

MMU Energy Efficiency Rebate Program

The Milford Municipal Utilities (MMU) Energy Efficiency Rebate Program will provide financial incentives to encourage electric customers to purchase and install energy efficient appliances, lights, HVAC systems and other devices, which use electricity and water wisely.

Section I
General Program Information

1. The effective date is September 3, 2024. Programs may be changed or cancelled by MMU without notice. Customers should check with the MMU office or visit our website at www.milfordiautilities.com for information on programs. There are no rebates for residential lighting.
2. Participants must be retail customers of MMU. The equipment shall be installed in the MMU electric service territory and cannot be relocated or sold for resale until retired from service.
3. MMU reserves the right to verify installation and invoices prior to rebate being paid.
4. MMU reserves the right to meter (at MMU expense) installed equipment to aid in determination of actual energy savings.
5. Rebates will not exceed equipment costs minus any manufacturers or dealer rebates.
6. Any rebates will be for items purchased and installed during the calendar year-January to December.
7. Customers are responsible to ensure that all equipment is installed in accordance with all codes, standards, and regulatory requirements.
8. Rebates will be approved on new devices only. No rebates will be approved for used items.
9. MMU does not guarantee reduced usage, demand, or cost savings. MMU makes no warranties, expressed or implied, with respect to any equipment purchased or installed. In no event shall MMU be liable for any incidental or consequential damages. MMU does not endorse any manufacturer or product in this program.
10. Completed applications will be processed on a first come, first served basis, until available funds are committed.
11. Any Customer or service provider determined by MMU to have provided false, inaccurate or fraudulent rebate applications may be suspended by the MMU Board from requesting future rebates.
12. Any income tax or other taxes which may be payable as a result of the rebate being paid (or applied to the utility account) are the responsibility of the customer.
13. MMU reserves the right to deny any rebates. The decision of MMU regarding any disputes, which arise in the rebate program, is final.

Section II
Residential Rebates

1. Rebates will be issued to the party that paid for the energy efficient item(s). If that party also occupies the residence where the device was installed, the rebate will be paid as a credit to the utility account at that location. If that party does not occupy the residence where the device was installed, the rebate will be applied as a credit to another utility account in that party's name, or will be given in the form of a check.
2. Payment will be made upon approval of completed application, original sales ticket, and MMU verification.
3. Customers who receive the rebate will agree on the application to allow MMU to install and operate load control equipment including but not limited to A/C, heat pumps, or water heaters when the Board of Trustees of MMU determines that the use of load control is required on the MMU electric system.
4. In order to receive a rebate for ENERGY STAR related refrigerator/freezer, applicant must provide written proof of disposal of their old refrigerator/freezer. Proof of disposal can be provided by your appliance dealer or a receipt for disposal from the City of Milford. Proof of disposal should be returned to MMU along with the receipt and completed application. Proof of disposal requirement is waved if there was not an existing refrigerator on the premise when the ENERGY STAR refrigerator was purchased.
5. All new homes that are all electric and all existing homes who convert to all electric will get a 1 cent per KWH discount for one year.
6. Rebates are listed on the application form.

Section III
Commercial Rebates

A. Commercial Lighting
   1. Any rebates will be for items purchased and installed during the calendar year-January to December.
   2. All bulbs and ballasts removed must be disposed of in accordance with any Federal, State, or local government regulations. MMU encourages participants to recycle these items. Contact the Dickinson County Recycling Center at 712-338-2549 for details.
   3. Customer agrees to maintain lighting for which rebates were received at the same efficiency or greater (i.e. customer cannot replace a burned out lamp with one of lower efficiency).
   4. MMU will not pay for the replacement of failed ballasts or burned out bulbs, regardless whether the equipment was installed under this rebate program or not.
   5. Rebates will be issued to the party that paid for the energy efficient item(s). The rebate will be paid as a credit to the customer's utility bill. If that party does not occupy the location where the device was installed, the rebate will be applied as a credit to another utility account in that party's name, or will be given in the form of a check.
   6. Rebates are listed on the rebate application.

B. Appliances
   1. Commercial accounts are also allowed to receive rebates for appliances that are listed in the residential program.
   2. Rules governing the appliance are the same as those listed in the residential program.
   3. If an energy efficient item is installed in a residence but paid for by someone other than the person who lives in the residence, the rebate shall be classified as a commercial rebate.
   4. Rebates are listed on the rebate application.

Section IV
Non-Profit Organization Rebates

1. All rebates shall follow the same rules and regulations and item rebates as provided in the commercial sector.

Section V
Local Government Agency Rebates

1. The following government agencies may apply for rebates under this section: City of Milford, County of Dickinson County, Lakes Regional Healthcare, and the Okoboji Community Schools (located in Milford).
2. All other governmental agencies may apply as non-profit or commercial.
3. All rebates shall follow the same rules and regulations and item rebates as provided for in the commercial section unless addressed in this section.
4. Customer rebates will be paid as a credit to the customer's utility bill.
5. Rebates are limited by minimums as required in the commercial program.
6. No rebates on recreational, parking lots, or street lighting.

Section VI
Maximum Rebate Allowances

Annual Maximum amount for all residential, commercial, non-profit, and local government rebates to be paid by MMU in the calendar year	$ 50,000
Annual Maximum Residential rebate per account	$ 2,500
